Important Safety Instructions

⚠ Indicates a potentially hazardous situation which, if not avoided, could result in death or serious injury.

Before using this equipment, obey the following warnings:

Read and understand all warnings on this machine.
Carefully read and understand the Assembly Manual.

• Keep bystanders and children away from the product you are assembling at all times.
• Do not assemble equipment in a wet or damp location.
• Make sure assembly is done in an appropriate work space away from foot traffic and exposure to bystanders.
• Some components of the machine can be heavy or awkward. Use a second person when doing the assembly steps involving these parts. Do not do steps that involve heavy lifting or awkward movements on your own.
• Set up this machine on a solid, level, horizontal surface.
• Do not try to change the design or functionality of this machine. This could compromise the safety and can void the warranty.
• If replacement parts are necessary use only genuine Nautilus replacement parts and hardware. Failure to use genuine replacement parts can cause a risk to users, keep the machine from operating correctly or void the warranty.
• Do not use or put the machine into service until the machine has been fully assembled and inspected for correct performance in accordance with the Owner’s Manual.
• Read and understand the complete Owner’s Manual supplied with this machine before first use. Keep the Owner’s Manual for future reference.
Before Assembly

Please take the time to read all assembly instructions before attempting to assemble your Bowflex Xtreme® SE home gym. Select where you are going to locate your machine carefully. The best place for your Bowflex Xtreme® SE home gym is on a hard, level surface.

Select a workout area that provides a minimum clearance behind the rod box of 0.5 ft (15 cm) and a total width of 6.5 ft (2.0 m). Allow a minimum of 3.0 ft (0.9 m) free space in front of the machine.

Basic Assembly Principles

Here are a few basic tips that will make your assembly of the Bowflex Xtreme® SE home gym quick and easy. By using these principles, you can simplify each process and save yourself extra time and effort.

1. To make the assembly process go faster, gather the pieces you need for each step and thoroughly read the assembly instructions for that step prior to starting assembly for the step.

2. When tightening a locknut on a bolt, use a combination wrench to grip the locknut and ensure that it is fastened securely.

3. When attaching two pieces, gently lift and look through the bolt holes to help guide the bolt through the holes.

4. As a general rule, and for all bolts and nuts on your Bowflex Xtreme® SE home gym, turn bolts or nuts toward the right (clockwise) to tighten and left (counterclockwise) to loosen.

IMPORTANT: LEAVE ALL CABLES COILED AND WRAPPED UNTIL YOUR BOWFLEX XTREME® SE HOME GYM IS FULLY ASSEMBLED.
